Education

- 2022 - Current **PhD, Environmental Science, Policy, and Management**,
University of California Berkeley
Advisors: Dr. Carl Boettiger and Dr. Perry de Valpine
- 2019 – 2021 **Master of Marine Affairs**, University of Washington
Thesis: Finding the Practical Value of Environmental DNA Data: A
Case Study with *Carcinus maenas*
Advisor: Dr. Ryan Kelly
- 2013 – 2017 **BS, Biology**, Haverford College
Thesis: Characterizing the culturable surface microbiomes of
diverse marine animals
Advisor: Dr. Kristen Whalen

Grants and Awards

Grants and Fellowships

- 2023 - 2027 Computational Science Graduate Fellowship. **Department of Energy**.
(\$180,000)
- 2022 - 2025 A decision framework for managing European Green Crab infestations on
the coast of Washington and Salish Sea shorelines. **US Geological
Survey**. UCB Award ID: 054356-001. (\$174,577)
- 2023, 2024 Summer Research Funding Grant. **UC Berkeley**. (\$2000, \$1700)
- 2023, 2024 Lyman Wildlife Fund. **UC Berkeley**. (\$1500, \$1700)
- 2023 Predictive Ecology Early Career Award. **Gordon Research Conference**
(\$500)

Awards

- 2021 McKernan Award for Most Outstanding Thesis, University of Washington
- 2017 Irving Finger Prize in Biology, Haverford College
- 2014 - 2016 NCAA Centennial Athletic Conference Academic Honor Roll, Haverford
College

Publications

Peer-Reviewed Journal Articles

In Review and In Prep

Acharya-Patel, N., Cram, K., Groenwold, E.T., Lee, H. **Keller, A.G.**, Bombback, B., Lyons, S., Warren, R.L., Coombe, L. Lowe, C., Bergman, L.C., Bishay, F., Birol, I., MacDonald, T.A., Helbing, C.C. Monitoring marine pollution effects through targeted environmental DNA (eDNA) testing in the Pacific Northwest. (In Review). *Marine Pollution Bulletin*.

Keller, A.G., Goldstein, B.G., Skare, L., de Valpine, P. An integrated integral projection model (IPM²) to disentangle size-structured harvest and natural mortality. (In prep)

Software and Management Tools

eDNAjoint: R package useful for interpreting observations from paired eDNA and traditional surveys. [User guide](#). Available on [Cran](#) and [ROpenSci](#).

European Green Crab Management Tools: Washington Sea Grant-hosted RShiny app co-developed with invasive species managers throughout Washington State to help plan and interpret European green crab removal efforts.

- Uses R package [greencrab.toolkit](#) (available on Cran)

Research Experience

- | | |
|-------------|--|
| 2024 | Visiting Researcher, Oak Ridge National Lab, Oak Ridge, TN
Built native brook trout habitat suitability models to inform hydropower siting |
| 2022 - 2023 | Graduate Student Researcher, Boettiger Lab, UC Berkeley
Integrated state-space population models and decision theoretic methods to inform optimal invasive species management strategies |

- 2021 – 2023 **Research Scientist 1, University of Washington/Washington Sea Grant**
Developed an interactive web tool (RShiny application) to support invasive species managers in planning and interpreting environmental DNA (eDNA) and trapping surveys
- 2021 – 2022 **Lab Manager, Williams Lab, UC Berkeley**
Conducted landscape genomic analyses to characterize environmental conditions contributing to adaptive genetic variation in California’s willow leaf beetle
- 2020 – 2021 **Graduate Research Assistant, University of Washington/Washington Sea Grant**
Built a Bayesian statistical model to aid eDNA data interpretation and inform use in invasive species management practices
- 2017 – 2019 **Research Assistant/Lab Manager, Cordes Lab, Temple University**
Used deep-sea remotely operated vehicle (ROV) and autonomous underwater vehicle (AUV) data to build habitat suitability models of deep-sea invertebrates with GIS and maximum entropy modeling methods
- 2016 – 2017 **Undergraduate Research Assistant, Whalen Lab, Haverford College**
Characterized the culturable microbiomes from the surfaces of marine animals and applied multivariate statistical analyses to find trends in microbial diversity
- 2016 **Guest Student, Aprill Lab, Woods Hole Oceanographic Institution**
Produced a microbial library of isolated bacterial and fungal strains associated with the skin and surface of marine host animals

--- Presentations

Washington European Green Crab Manager’s Symposium. 2025. Oral Presentation. Keller, A., Goldstein, B.G., Skare, L., de Valpine, P. *An integrated population model to evaluate size-structured European green crab population dynamics*.

Mobilizing Environmental DNA (eDNA) for Management in the Northeast Pacific Ocean Region. 2024. Oral Presentation. Keller, A. *Mobilizing eDNA research for European green crab management: advances and limitations*.

Washington European Green Crab Trappers Summit. 2023. Featured Speaker. Keller, A., McDonald, P.S., Grason, E., Kelly, R.P. *A Shiny App for planning and interpreting European Green Crab trapping efforts*.

The Wildlife Society Annual Meeting. 2023. Oral Presentation. Keller, A., Counihan, T., Boettiger, C. *The transition from resistance to acceptance: controlling a marine invasive species in a changing world*.

North Pacific Marine Science Organization (PICES) Annual Meeting. 2023. Oral Presentation. Keller, A., Counihan, T., Boettiger, C. *The transition from resistance to acceptance: controlling a marine invasive species in a changing world*.

Predictive Ecology Gordon Research Conference (GRC). 2023. Poster presentation. Keller, A. de Valpine, P., Boettiger, C. *Developing a decision support framework for managing a marine invasive species under uncertainty*.

California Conservation Genomics Project. 2022. Oral presentation. Keller A., Dahlhoff, E., Bracewell, R., Chatla, K., Bachtrog, D., Rank, N., Williams, C. *Multilocus genomic signatures of local adaptation to snow in the willow leaf beetle (Chrysomela aeneicollis)*.

Salish Sea Ecosystem Conference. 2022. Snapshot video. Keller A., Grason, E., McDonald, P.S., Kelly, R. *An interactive web tool for planning and interpreting European green crab management efforts*.

Pacific Coast Shellfish Growers Association. Virtual. 2021. Oral Presentation. Keller, A. *The Practical Value of eDNA Information: A Case Study with European Green Crab*.

Development of eDNA Research. Virtual. 2021. Oral Presentation. Keller, A., Kelly, R. *Tracking a Marine Invasion Front Using Molecular Surveys*.

Association for the Sciences of Limnology and Oceanography. San Juan, PR. 2019. Oral Presentation. Keller, A., Durkin, A., Cordes, E. *Cold seep habitat mapping of Costa Rica's Pacific continental margin*.

Association for the Sciences of Limnology and Oceanography. Honolulu, HI. 2017. Poster Presentation. Keller, A., Apprill, A., Lebaron, P., Robbins, J., Whalen, K. *Isolating diverse microorganisms via targeted cultivation of marine animal microbiomes*.

PennCHOP Microbiome Symposium. Philadelphia, PA. 2016. Poster Presentation. Keller, A., Apprill, A., Lebaron, P., Robbins, J., Whalen, K. *Isolating diverse microorganisms via targeted cultivation of marine animal microbiomes*.

WHOI Summer Student Research Symposium. Woods Hole, MA. 2016. Poster Presentation.

Keller, A., Apprill, A., Lebaron, P., Robbins, J., Whalen, K. *Isolating diverse microorganisms via targeted cultivation of marine animal microbiomes*.

Teaching Experience

- 2020 **Graduate Teaching Assistant, Analysis for Biologists I, University of Washington**
Assisted the instruction of a differential calculus course with ecological and biological applications
- 2019 **Biology 180 Field Trip Leader, University of Washington**
Developed curriculum and led field trips for groups of 10-16 undergraduate students to Washington Park Arboretum to teach about tree evolution and phylogeny
- 2017 **Undergraduate Teaching Assistant, Introduction to Biology, Haverford College**
Assisted the instruction of a cellular and molecular biology laboratory course, graded weekly assignments and laboratory exams

Mentorship

- | | |
|-----------|-----------------------|
| 2020-2021 | Justine Jadallah (UW) |
| 2021-2022 | Mark Lacsamana (UCB) |
| 2022 | Mumin Sabha (UCB) |
| 2024 | Yijin Wang (UCB) |
